Day 2 Dog-sledding Introduction

Today we will learn Finnish dog-sledding techniques and practice our skills. In the morning we will meet the dogs, each sled is lead by a team of 4 to 5 dogs (2 to 3 dogs for children) We will start out on frozen lakes and before we know it we will be exploring the forest with ease, enjoying this magical method of transport. After a picnic at Jatkonjärvi's hut by the lake, we will journey through the stunning forest scenery in style to Peurapirtti. Here we find a hidden trappers cabin - our accommodation for the night - the wood stove crackles as the camp settles and our dogs finally doze off...

Day 3 Dog-sledding Safari

Today's track takes us Northwards to Lakkujärvi, an area where it is usual to see herds of reindeer. We will ride over forest lakes of many different shapes which give way to hidden woodland paths. The wide track sometimes narrows and our dog teams sneak into the heart of Hossa's wild taiga. This afternoon, we arrive back at our basecamp where we will look after our loyal dogs and equipment.

Activities: 4 to 5 hours of dog-sledding (1 per sledge)

You will be welcomed at the airport by a representative from our friendly team and accompanied for the duration of your holiday. Armed with an abundance of experience and a wealth of knowledge our professional Finland team know the country inside out. All activities are lead by our qualified guides who are English speaking outdoor practitioners with a passion for everything Finnish. It is possible that your group could be international, therefore several languages might be spoken by your guide.

Food

This trip includes full board from dinner on day 1 to breakfast on day 8. You will have the chance to try some traditional Finnish meals like smoked fish, salmon soup, reindeer stew and traditional cakes - please be aware that fresh fruit and vegetables are rare in our isolated northern location.

- At the hostel/cottages: Generous buffet style breakfasts and dinners are served with hot drinks and lots of options
- Lunches: Picnic lunches are provided on our activity days including hot food cooked on wood fires
- In the trappers huts: We like when the whole group work as a team to cook a traditional style dinner with their guide during our nights in the cabins - it creates a pleasant atmosphere as we reflect on the days adventures together.

Please let us know about any dietary requirements when you book the trip and we will work with you to cater for your needs.

Accommodation

Our basecamp is located in the heart of Hossa National Park, more than 60 miles (+100kms) away from a village or shop - no mass tourism hubs or Santa Claus Village here with us! There are 23 inhabitants in and around Hossa, most of them are reindeer farmers and yes, there are more bears here than people! We live here peacefully and we work closely with authorities to protect and preserve this stunning National Park. During your stay, you will not have many opportunities to meet local people since there are very few of them but you may cross paths with ice fishers or Nordic skiers and visit local reindeer farms.

This trip includes 4 nights in our cottage and 3 nights in trappers huts. Bed linens, sleeping bags and towels are provided by Norwide. During your Safari in the Taiga, it will be ask of you to clean your cottage as your luggages will be stored in a special cabin.

Our cottages:

- The Classic Cottage has a living room/kitchen area with twin or bunk beds plus a private bathroom and sauna

Trappers huts: We love our back to basics no frills accommodation options which enable us to get close to nature - these traditional log cabins are just like mountain refuges, they are all equipped sometimes even with Finnish saunas and they are full of charm! They normally have a single dormitory for 4 to 6 people with one main living room. Generally there is no running water or electricity; dry toilets are found outside. Wood-stove heating warms the cabins quickly and efficiently even when it is cold outside.

- A warm jacket for the cold
- Snowshoes and poles
- A warm protective oversuit

- Waterproof over mittens
- A balaclava
- A durable waterproof bag

Please be aware that upon booking you may be asked your size, height and weight in order to reserve the appropriate equipment in advance.

Vital equipment

You must bring with you:

- A sleeping bag liner

- A ski mask
- Any personal medication
- Good thermals - top & long johns
- Sun-cream (not water based)
- A head torch and spare batteries
- A thermos flask
- Driver's license for snowmobile
- Credit card for equipment deposit

Material

We prefer that you do not wear any cotton clothing, including underwear, when participating in activities. When cotton gets wet from water or sweat it ceases to insulate and it does not dry fast. The best materials for outdoor activities are fast drying materials like polyester or materials which are warm when wet like wool. The most powerful materials against the wind and rain are 'breathable' materials like Gore-Tex or Nikwax.

Our advice for keeping warm

Winter in Finland can be very cold, please think carefully about what clothes you bring, although we will provide warm outer layers, the layers you wear next to your skin make the biggest difference. We recommend:

- No cotton
- Bring dry spares of everything, including underwear and gloves
- Wear multiple layers including:
 1. A warm breathable base layer
 2. A second thermal layer
 3. Wind and waterproof protective out layer (we provide a quality jacket and over trousers for activities)

Helpful equipment

We recommend packing:

- Warm (wool) socks
- A warm wind and waterproof jacket
- Suitable warm trousers - windproof ski style, soft shell or fleece lined mountaineering trousers are ideal
- Warm jumper(s) and jacket(s)
- Warm baselayer thermals - very important! (Thin technical fibers as Carline or Polartec are extremely efficient)
- Gloves - multiple pairs for under and over
- A warm hat
- Appropriate neck wear like a warm buff
- Swim suit (sauna)
- Travel towel (sauna)
- Shoes for wearing in the evenings in your various accommodation options

You may also consider packing:

- Wetwipes
- Blister plasters

- A camera (and suitable protective case)
- Plastic bags for wet/dirty clothing

Luggage

You may bring a hold bag (up to 20kg) as well as a cabin bag.

For you hold luggage please bring a soft bag like a rucksack rather than a hard cased suitcase because it is more practical. We also recommend that you pack your clothes in plastic bags inside your rucksack so that they stay dry in the event of bad weather.

Do not forget to bring a small rucksack to use as a day bag (25/30L). You can bring this as hand luggage on the plane. You will carry your lunch, water, spare layers and any personal medication with you each day in this bag.

Medicine

Your guide is trained first aider and will carry a full appropriate first aid kit. We recommend that you bring with you a small first aid kit as well as any medication you may need with you such as inhalers, plasters and painkillers.

A valid [European Health Insurance Card \(EHIC\)](#) will insure that you can access state-provided healthcare for free or at a reduced cost.

Passport

You will need a passport that is valid for at least three months after your return date.

Visa

UK passport holders do not require a VISA to visit Finland which part of the Schengen cooperation.

The [Ministry for Foreign Affairs of Finland](#) lists the accepted travel documents and visa requirements for every country.

Mandatory vaccines

There are no specific health risks

Weather

Winter in Finland is cold and dry, **temperatures** in Hossa can drop as low as -25°C (-13°F) but warm clothing, good food and an active lifestyle will keep you warm.

A thick layer of **snow** covers Finland from December, when it settles, to the end of April, when it melts. The dry cold preserves the snow and makes temperatures feel warmer than you might imagine.

During the winter months daytime is relatively short in Finland but thanks to the snow and the occasional displays of the dancing Northern Lights it is never completely black even in the regions where the sun does not rise at all - winter brings a beautiful blue **light** with a feeling of permanent dusk. In mid-April, the sun stays above the horizon for 14-16 hours so during March and April you can enjoy long glorious days of winter sports under a bright sun. Other winter days include 4 to 5 hours of a light called gray light, usually 10am to 2pm, with local variations.

The Northern Lights

The beautiful dancing lights are most likely to appear on black nights in February-March and September-October in the North of Finland. Statistics show that most are observed in Lapland, in the region of Kilpisjärvi. When the night skies are clear, the Northern Lights can be observed three nights out of four in Kilpisjärvi, every other night in the Sodankylä region and one out of four nights near Oulu-Kuusamo.

Electricity

Finland uses the standard Europlug socket with two round prongs (50Hz/230 volts)

Local time

Finland uses Greenwich Mean Time (GMT)+2 and observes Daylight Saving Time making it GMT+3 during the summer months

Topography

Area: +130502 square miles (+338,000 km²) which consists of around 10% water, 69% forest and only 8% cultivated land

Size: It is the seventh largest country in Europe, +720 miles (1160km) North to South and +335 miles (540km) East to West

Borders: Sweden, Norway, Russia and the coast

There are said to be 187888 lakes here in Finland and 179584 islands including a concentration of islands off the South West coast which forms the largest archipelago in Europe.

Sustainable tourism

As adventure and wilderness travel experts who run trips to some of the most remote parts of the world, we take responsible tourism very seriously.

Here in Finland we work in partnership with Metsähallitus to protect Finnish waters and forests - an exclusive agreement which enables us to use the roads of Hossa National Park. Our kennel is cleaned daily and subject to regular veterinary and we work with MyClimate to offset all carbon emissions produced by snowmobiling activities and transfers.

We respect the 'Leave No Trace' outdoor ethical code and try to explore this beautiful location whilst causing minimal environmental damage.

The Leave No Trace policy can be summarized in 7 simple steps which we hope you will follow during our trip...

1. Be prepared
2. Stick to trails and camp overnight right
3. Stash your trash and pick up waste
4. Leave it as you find it
5. Be careful with fire
6. Respect wildlife
7. Be considerate of other visitors

Over the years we have built up good relations with our local suppliers and we are keen to support local businesses as much as possible. We are a small company and we pay our local partners and suppliers directly insuring fair rates. Our small group sizes not only provide a more intimate adventure but also cause less impact on the environment and local communities.

We expect all who travel with us to support and uphold our Sustainable Tourism philosophies.
